

AORTIC SURGERY PERIPHERAL & VENOUS H T D I

8th INTERNATIONAL CONGRESS

MILANO - ITALY DECEMBER 13th - 15th, 2018

Chairmen Roberto Chiesa, Germano Melissano

Ospedale San Raffaele, Milano Università Vita-Salute San Raffaele, Milano

Dear Colleagues,

it is with great pleasure that we welcome you to the 8th edition of the International Congress: Aortic Surgery | Peripheral & Venous "How To Do It".

A truly international faculty of 300 experts in their fields and distinguished keynote lecturers will share their outstanding experience. We take this opportunity to thank each of them for their commitment.

The mission of the Congress is to offer to the participants an update focused mostly on the practical aspect of vascular surgery through a dynamic format based on rapidly paced presentations.

The program features:

- Multidisciplinary up-to-date topics
- Abdominal and thoracic aortic disease
- Peripheral, carotid and venous disease
- Keynote lectures by acknowledged opinion leaders
- World-class speakers
- Intense panel discussions

- Controversies / Debates
- Hands-on workshops
- Simulators
- Industry updates
- E-posters from young investigators
- Cardiovascular Nursing Symposium
- English official language

We hope once again to be able to offer a useful and enriching experience to everyone.

2

110	
13.00	SESSION 1 MISCELLANEA I Moderators: Giovanni Colacchio, Maurizio Taurino, James Tunnicliffe
13.01	Gluteal compartment syndrome following AAA treatment Speaker: Umberto M. Bracale
13.07	Circumferential fenestrated aortic stent-graft. First implantation in Europe of a new custom-made device Speaker: Gaetano La Barbera
13.13	Current management of chronic mesenteric ischemia Speaker: Guido Bajardi
13.19	Critical limb ischemia and hemodialysis Speaker: Sergio Losa
13.25	From Fogarty to hybrid and endovascular treatment. Latest innovations in acute limb ischemia treatment Speaker: Gianmarco de Donato
13.31	Endovascular treatment of mycotic aneurysm - a paradigm shift Speaker: Anders Wanhainen
13.37	Hybrid treatment of femoro-popliteal lesions Speaker: Felice Pecoraro
13.43	Chimney approach to aortic arch aneurysm Speaker: Jorge Fernandez Noya
13.49	Symptomatic popliteal arteries aneurysms: therapeutic options and rationale approach Speaker: Roberto Gattuso
13.55	The role of thoracic surgeon in thoracic and thoraco-abdominal aortic surgery Speaker: Giampiero Negri
14.01-14.10	Round table/Discussion

14.11	SESSION 2 CAROTID I Moderators: Piergiorgio Cao, Bruno Gossetti, Gaetano Lanza
14.12	Contralateral occlusion increasing the risk in neurological complications associated with carotid endarterectomy Speaker: Enrico Sbarigia
14.18	Carotid bifurcation resection and replacement with PTFE for aneurysmatic disease Speaker: Giulio Illuminati
14.24	Cerebral ischemic lesions and carotid stenosis Speaker: Gianluca Faggioli
14.30	Safety of carotid revascularization in the acute period Speaker: Massimo Lenti
14.36	Urgent carotid endarterectomy Speaker: Laura Capoccia
14.42	Embolic protection during CAS Speaker: Michele Antonello
14.48	Global registry for extracranial carotid aneurysms: an update on the first 350 cases Speaker: Gert de Borst
14.54	Asymptomatic carotid stenosis and ACST-2 Speaker: Alison Halliday
15.00-15.09	Round table/Discussion
15.10-15.39	INDUSTRY FOCUS 1
15.40-15.55	KEYNOTE LECTURE I Benjamin W. Starnes Ruptured aneurysm protocol. Lessons from a busy aortic center

15.56	SESSION 3 ENDOLEAKS Moderators: Angelo Argenteri, Stefano Bonardelli, Ronald L. Dalman	
15.57	Minimally invasive options for prevention and treatment of Type II endoleak Speaker: Athanasios D. Giannoukas	
16.03	Treatment of Type I B endoleak Speaker: Antonio Freyrie	
16.09	Transcaval embolization of Type II endoleak Speaker: Tilo Kölbel	
16.15	Comparison between intra-operative sac embolization in EVAR and EVAS for the prevention of Type II endoleak Speaker: Paolo Frigatti	
16.21	EVAR follow-up: traumas could facilitate late high flow endoleaks Speaker: Francesco Setacci	
16.27	Impact of diabetes on endoleaks and re-intervention after EVAR Speaker: Natzi Sakalihasan	
16.33	What diabetes can teach us about AAA? Speaker: Ronald L. Dalman	
16.39	A new technique to treat and prevent endoleaks after EVAR	
16.45-16.54	Speaker: Michael J.H.M. Jacobs Round table/Discussion

BENJAMIN W. STARNES

I: THURSDAY, DECEMBER 13[™] H.15.40-15.55

"Ruptured aneurysm protocol. Lessons from a busy aortic center"

- Professor and Chief, Division of Vascular Surgery, University of Washington
- Chief of Vascular and Endovascular Surgery, Harborview Medical Center
- The Alexander Whitehill Clowes, MD Endowed Chair in Vascular Surgery
- Vice Chair, Department of Surgery, University of Washington

MICHEL S. MAKAROUN

II: THURSDAY, DECEMBER 13TH H.18.30-18.45

"Open conversion for failed EVAR"

- Co-Director, UPMC Heart and Vascular Institute
- Professor and UPMC Chair, Division of Vascular Surgery
- Professor of Surgery and Clinical Translational Research at the University of Pittsburgh
- President, Society for Vascular Surgery (SVS)

ALAN LUMSDEN

III: FRIDAY, DECEMBER 14TH H.10.30-10.45

"Imaging for advanced aortic interventions"

- Walter W. Fondren III Chair, MD of the Houston Methodist DeBakey Heart
 Vascular Center
- Chair of the Department of Cardiovascular Surgery at Houston Methodist Hospital
- He has contributed more than 200 papers to the medical literature, as well as numerous abstracts, books, and book chapters

GUSTAVO S. ODERICH

IV: FRIDAY, DECEMBER 14TH H.12.55-13.10

"Complex endovascular repair"

- Professor of Surgery Chair, Division of Vascular and Endovascular Surgery
- Director of Aortic Center, Program Director for Vascular Training
- Associate Editor, Annals of Vascular Surgery
- Author of more than 500 peer-reviewed articles, abstracts, book chapters, editorials
- Roy Greenberg SVS Lecturer
- Author of the best-selling book: "Endovascular Aortic Repair: Current Techniques with Fenestrated, Branched and Parallel Stent-Grafts"

GERMANO MELISSANO

V: FRIDAY, DECEMBER 14TH H.17.04-17.19

"The STABILISE technique for acute/subacute Type B dissection"

- Associate Professor of Vascular Surgery, "Vita-Salute" San Raffaele University, Milano Italy
- Distinguished Visiting Professor Stanford University and Washington University
- Presidential Guest Lecturer at the Western Society for Vascular Surgery
- Honorary Member of the Society for Clinical Vascular Surgery
- Co-founder and Co-chairman of the International Congress: "Aortic Surgery How to do it"

ALBERTO CORSINI

VI: FRIDAY, DECEMBER 14TH H.19.00-19.15

"Cholesterol, arterial inflammation and destabilization of atherosclerotic plaque: new indications and new weapons"

- Full Professor of Pharmacology Chair of the Department of Pharmacological and Biomolecular Sciences, University of Milano
- Member of the Executive Committee of the Italian Society for the Study of Atherosclerosis
- Participation to the Editorial Board of: Clinical Therapeutics, Cardiovascular Drug and Therapy, Pharmacological Research, Cancer and Aging

JAMES H. BLACK III

VII: SATURDAY, DECEMBER 15[™] H.10.20-10.35

"Surgical issues involving portal vein and IVC"

- Chief, Division of Vascular Surgery and Endovascular Therapy, Johns Hopkins Hospital
- David Goldfarb, MD Endowed Research Professor, Johns Hopkins School of Medicine
- President-Elect, Vascular and Endovascular Surgery Society
- Distinguished Fellow, Society for Vascular Surgery

JOSEPH S. COSELLI

VIII: SATURDAY, DECEMBER 15[™] H.13.15-13.30

"Aortic arch repair"

- Professor and Chief of Division of Cardiothoracic Surgery, Michael E. DeBakey Department of Surgery at Baylor College of Medicine
- Chief of Adult Cardiac Surgery at the Texas Heart Institute
- Past President, the American Association for Thoracic Surgery, the Denton A. Cooley Cardiovascular Surgical Society, the Southern Thoracic Surgical Association, the Michael E. DeBakey International Surgical Society and the Texas Surgical Society
- Recipient of: Antoine Marfan Award, Francis Robicsek Award, Michael E. DeBakey Excellence in Research Award

ERIC VERHOEVEN

IX: SATURDAY, DECEMBER 15TH H.16.50-17.05

"Technical lessons learned in over 1000 complex aortic endovascular procedures"

- University Professor of Vascular Surgery, Klinikum Nuremberg, Paracelsus Medical University Nuremberg, Germany
- Professor of Vascular Surgery, University of Leuven, Belgium
- Professor of Surgery, University of Lisbon, Portugal

HTDI 2018 scientific program includes several stimulating and innovative workshops.

PARACELSO ROOM 2

HANDS-ON WORKSHOP ON SIMULATORS Aortic arch debranching and repair

Practical course aimed at providing useful advice to those vascular and cardiac surgeons who want to deal with the aortic arch pathology.

Dec. 13th | 08.00-11.00 (1st Session) Dec. 13th | 12.00-15.00 (2nd Session)

CONVENORS

Daniele Mascia, Paola Redaelli, Giordano Tasca, Alessandro Verzini

OBJECTIVES

The training will be focused on lifelike cases performed on pulsatile models and will give the opportunity to acquire manual and cognitive competences.

TOPICS

- Aortic arch clamping for SAT rerouting
- Aortic debranching
- Tailored-grafts for debranching setting-up

TARGET AUDIENCE

- Cardiac surgeons
- Vascular surgeons

NUMBER OF PARTICIPANTS

4 for each session

IN COLLABORATION WITH

GETINGE 🛠

NINA ROOM

HANDS-ON WORKSHOP ON SIMULATORS Turning REVAR into an elective EVAR

Workshop aimed at improving the outcomes of treatment of RAAA.

Dec. 13th | 08.00-12.00 (1st Session) Dec. 15th | 07.45-12.45 (2nd Session)

CONVENORS

Isabelle Van Herzeele, Zoran Rancic, Ruy Fernandes e Fernandes, Fernando Gallardo Pedrajas, Barend Mees, David Pakeliani, Felice Pecoraro, Hunor Szekessy, Anders Wanhainen

OBJECTIVES

During the workshop participants will be able to treat a simulated RAAA by endovascular means under close supervision. The importance of the TEAM approach to manage RAAA successfully will be demonstrated and discussed.

TOPICS

- RAAA protocol including permissive hypotension
- Procedural steps for endoclamping
- REVAR using the double balloon technique
- TEAM approach during RAAA management

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 12 for each session

IN COLLABORATION WITH

Medtronic

PARACELSO ROOM 1

HANDS-ON WORKSHOP ON SIMULATORS Open AAA repair

Practical course aimed at providing the skills for the surgical treatment of AAA.

Dec. 13th | 08.00-11.00 (1st Session) Dec. 13th | 12.00-15.00 (2nd Session)

CONVENORS

Daniele Mascia, Alessandro Alessi Innocenti, Franco Codispoti, Marco Franchin, Giorgio Poletto

OBJECTIVES

The training will be focused on lifelike cases performed on pulsatile models and will give the opportunity to acquire manual and cognitive competences. It will be structured on a step-by-step learning of basic and complex techniques under the supervision of experienced tutors.

TOPICS

- Aorto-aortic bypass
- Supra renal clamping with renal perfusion
- Inferior mesenteric artery reimplantation

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 16 for each session

IN COLLABORATION WITH

ARRHYTHMOLOGY ROOM

WORKSHOP Advanced Aortic Procedure -Italian Expert Meeting (IEM)

f-EVAR & b-EVAR: how to do it.

Dec. 13th | 10.00-13.00

CONVENORS

Mauro Gargiulo, Massimo Lenti, Germano Melissano, Carlo Pratesi

OBJECTIVES

At the end of the workshop participants will be able to better understand the recent developments in the treatment of complex aortic pathologies with fenestrated and branched endografts.

TOPICS

- Solutions to serious complications after complex f-EVAR/b-EVAR
- How to prevent SCI
- Prevention of complications in organ hypoperfusion
- Technical aspects of the procedures

TARGET AUDIENCE

- Vascular surgery specialists
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• By invitation only

NINA ROOM

HANDS-ON WORKSHOP ON SIMULATORS EVAR

Training on endovascular basics for treatment of AAA.

Dec. 13th | 13.00-15.00 (1st Session) Dec. 13th | 16.00-18.00 (2nd Session)

CONVENORS

Luca Bertoglio, Emiliano Chisci, Aaron Fargion, Enrico Gallitto, Matteo Orrico, Sara Segreti

OBJECTIVES

The aim of this course is to train young vascular surgeons on endovascular basics of standard treatment of AAA and give them access to simulators in order to improve their skills in a practical and modern way. The course is structured on a step-by-step learning of basic and complex techniques, under the supervision of experienced tutors.

TOPICS

- How to choose the correct graft
- What is needed to perform an EVAR
- How to do EVAR (Simbionix simulator)

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 12 for each session

IN COLLABORATION WITH

Medtronic

PINTA ROOM

WORKSHOP How to write a paper... that gets published

How to approach scientific paper and publishing process, in order to be published on the best peer-reviewed journals, taught by the Editors.

Dec. 14th | 08.00-10.00

CONVENORS

James H. Black III, Piergiorgio Cao, Nabil Chakfè, Florian Dick, Olivier A. Goëau-Brissonière, Philippe Kolh, Janet Powell, Eric Verhoeven

OBJECTIVES

To get your research published in a scientific journal not only you must have something important to say but you must also know how to present it. Reviewers want to be able to assess quickly whether a paper is worthy of publication and the structure and readability of the paper is immensely important.

TOPICS

- How to approach the various sections of a scientific paper - abstract, introduction, methods, results, discussion and references
- How to write case reports and reviews
- The publishing process the role of the editor, assessor, publisher, house style and electronic publishing

TARGET AUDIENCE

Medical doctors

NUMBER OF PARTICIPANTS

• 20

PLATONE ROOM

HANDS-ON WORKSHOP ON SIMULATORS For AAA and Iliac Branched Devices platform

Endovascular treatment for the aorto-iliac aneurysmatic pathology.

CONVENORS

Michele Antonello, Dimitrios Apostolou, Gian Luca Canu, Emiliano Chisci, Carlo Coscarella, Rocco Giudice, Giacomo Isernia, Sergio Losa, Gioele Simonte, Filippo Turini

OBJECTIVES

The aim of the workshop is to develop the technical skills of the participants, in order to achieve a successful endovascular treatment for the aorto-iliac aneurysmatic pathology with a preservation of the internal iliac artery through the implantation of a branched stent-graft.

TOPICS

- Evaluate the characteristics of the AAA + IBD platform
- Correctly plan and size an AAA + IBD procedure according to the IFU
- İmplant the devices with an electronic simulator in order to identify all the respective procedural steps
- Review the procedure performed with a Q&A session with the tutors

TARGET AUDIENCE

Medical doctors

NUMBER OF PARTICIPANTS

• 4 for each session

IN COLLABORATION WITH

JOTEC* Joined the CryoLife* Family

PARACELSO ROOM

HANDS-ON WORKSHOP Foam sclerotherapy: from aesthetic to functional disease

An interactive (theoretical and practical) workshop regarding advanced techniques to perform foam sclerotherapy.

Dec. 14th | 08.00-10.00 (1st Session) Dec. 14th | 10.45-12.45 (2nd Session)

CONVENORS

Marcelo Liberato de Moura, Attilio Cavezzi

OBJECTIVES

At the end of the course participants will be able to safety and effectively perform foam sclerotherapy in daily practice.

TOPICS

- Aesthetic phlebology
- Compression therapy (Post-procedure; C1 to C6)
- Catheter, tumescence and irrigation in saphenous treatment
- Venous Ulcer Treatment Protocol
- Practical workstation

TARGET AUDIENCE

- Vascular surgeons
- Angiologists
- Vascular surgery residents

NUMBER OF PARTICIPANTS

10 for each session

PINTA ROOM

WORKSHOP

Understanding Professional Guidelines

How do international Society Guidelines affect our everyday clinical practice.

Dec. 14th | 10.45-12.45

CONVENORS

Piergiorgio Cao, Nabil Chakfè, Ronald L. Dalman, Sebastian Debus, Vicente Riambau, Melina Vega de Céniga, Fabio Verzini, Anders Wanhainen

OBJECTIVES

The convenors have been personally involved in writing Society Guidelines both in Europe and in North America; they will share with the participants this exiting experience, highlighting what should be kept in mind from these important documents in everyday practice.

TOPICS

- Methodology: how ESVS guidelines are constructured
- Overview in current activities and visions in ESVS
- The rules of implementation, how to put them in practice
- Lessons learnt from ESVS guidelines for descending thoracic aorta, abdominal aorta, carotid and infections.

TARGET AUDIENCE

Medical doctors

NUMBER OF PARTICIPANTS

• 20

PINTA ROOM

WORKSHOP Negative pressure therapy in vascular surgery

Negative pressure: from prevention of surgical wounds complications in high risk patients to management of surgical complications. Is there a rationale of treatment?

Dec. 14th | 14.30-16.30

CONVENORS

Alessandro Corsi, Gaetano De Angelis, Ornella Forma, Giulia Vidotto

OBJECTIVES

At the end of the course participants will be able to understand the importance of using the negative pressure to treat surgical wounds and how adaptable is this treatment in different patients.

TOPICS

- Vascular wounds
- Complications in vascular wounds
- NPWT

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 10

PARACELSO ROOM

HANDS-ON WORKSHOP Peripheral revascularization with the Omniflow graft

Practical course aimed at providing the skills for the surgical treatment of peripheral artery diseases with the Omniflow graft.

Dec. 14th | 14.30-16.30

CONVENOR

Enrico Rinaldi

OBJECTIVES

The training will be focused on lifelike cases performed on models. It will be structured on a step-by-step learning of different techniques under the supervision of experienced tutors. At the end of the course participants will be able to use the Omniflow graft for peripheral revascularization.

TOPICS

- Surgical treatment for peripheral artery diseases
- How to prepare the Omniflow graft
- When and how to use the Omniflow graft for peripheral revascularization

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 4

IN COLLABORATION WITH

PARACELSO ROOM

HANDS-ON WORKSHOP Carotid endarterectomy

Practical course aimed at providing the skills for the surgical treatment of carotid endarterectomy.

Dec. 14th | 17.15-18.30

CONVENOR

Enrico Rinaldi

OBJECTIVES

The training will be focused on lifelike cases performed on models and will give the opportunity to acquire manual and cognitive competences. It will be structured on a step-by-step learning of basic and complex techniques under the supervision of experienced tutors. At the end of the course participants will be able to perform different techniques of carotid endarterectomy on models.

TOPICS

- Surgical treatment for carotid artery stenosis
- Different techniques of carotid endarterectomy

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 4

IN COLLABORATION WITH

PARACELSO ROOM

HANDS-ON WORKSHOP New frontiers in the treatment of DVT: from pharmacological therapy to endovascular treatment

Indications, techniques, tips & tricks and current evidence

Dec. 15th | 07.45-09.45

CONVENORS

Domenico Baccellieri, Marzia Lugli

OBJECTIVES

At the end of the course participants will be able to identify ideal cases for stenting, to perform stenting procedures, to build a deep vein reconstructive center.

TOPICS

- Definition, etiology and pathophysiology of venous obstruction
- Current guidelines for DVT treatment
- How to build deep vein reconstructive center
- Indication and patients selection for stentina
- Materials, tips & tricks for venous recanalization
- Stenting in post-thrombotic syndrome
- Stenting in NIVL

TARGET AUDIENCE

- Vascular surgeons
- Angiologists
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 15

IN COLLABORATION WITH

VASCULAR SURGERY OUTPATIENT CLINIC

HANDS-ON WORKSHOP Carotid duplex ultrasound

Practical execution of carotid duplex ultrasound on pathological patients. Evaluation of carotid plague. Study of the flow and percentage of stenosis. The vertebral artery and pathological findings.

Dec. 15th | 07.45-09.45

CONVENORS

Domenico Astore, Diletta Loschi

OBJECTIVES

At the end of the workshop participants will be able to perform carotid duplex ultrasound.

TOPICS

- What is the PRF and how to adjust it
- How to correct the aliasing
- Steering and theta angle
- IMT and how it can be calculated
- Echogenicity and regularity of plaque surface
- Diameter of stenosis: morphological and fluximetric criteria
- Vertebral flow: subclavian steel, hypoplasia, distal occlusion, stenosis

TARGET AUDIENCE

- Vascular surgeons
- Anaiologists
- Cardiologists
- General surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 5

VASCULAR SURGERY OUTPATIENT CLINIC

HANDS-ON WORKSHOP Venous duplex ultrasound

Practical execution of venous duplex ultrasound on pathological patients. Evaluation of deep venous circle. Great and short saphenous vein incompetence. Venous mapping of the lower limb.

Dec. 15th | 10.45-12.45

CONVENORS

Federico Annoni, Matteo Bossi

OBJECTIVES

At the end of the workshop participants will be able to perform venous duplex ultrasound.

TOPICS

- What is the PRF and how to adjust it
- How to correct the aliasing
- Steering and theta angle
- DVT and CUS
- Post thrombotic syndrome
- Great and short saphenous vein incompetence
- Perforating vein incompetence
- Venous mapping of the lower limb

TARGET AUDIENCE

- Vascular surgeons
- Angiologists
- General surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 5

PINTA ROOM

WORKSHOP **Deep Venous Thrombosis**

Treating Deep Venous Thrombosis - Advances and challenges.

Dec. 15th | 10.45-12.45

CONVENOR

Armando Mansilha

OBJECTIVES

At the end of the course participants will be able to better understand the recent developments in the treatment of deep venous thrombosis on acute phase, for how long to extend the anticoagulation, prevention of recurrence and post-thrombotic syndrome, chronic venous outflow obstruction and venous stenting.

TOPICS

- Acute and extended treatment
- Efficacy and safety of DOACs
- Thrombophilia screening
- Venous stenting

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 15

PARACELSO ROOM

HANDS-ON WORKSHOP New solutions for venous disease

Radiofrequency ablation, glue, venous stenting.

Dec. 15th | 10.45-12.45

CONVENORS

Domenico Baccellieri, Marzia Lugli

OBJECTIVES

At the end of the course participants will be able to identify ideal cases for radiofrequency ablation, glue occlusion of saphenous trunks, treatment of deep venous obstructions.

TOPICS

- Current evidence for RFA
- RFA of great saphenous vein
- RFA of small saphenous vein
- RFA of perforating veins
- Glue occlusion Venous stenting
- Cannulation
- Tips & tricks for complex cases

TARGET AUDIENCE

- Vascular surgeons
- Angiologists
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 15

IN COLLABORATION WITH

Medtronic

PINTA ROOM

HANDS-ON WORKSHOP ON SIMULATORS When varicose veins are only the tip of the iceberg

Varicose veins and correlated deep venous disorders.

Dec. 15th | 14.30-16.30

CONVENORS

Oscar Maleti, Marzia Lugli

OBJECTIVES

At the end of the course participants should be aware about deep venous obstruction and reflux correction and have knowledge on IVUS technique.

TOPICS

- How to evaluate superficial incompetence and associated deep venous disorders
- How to treat venous obstruction
- Vein stenting: how to start
- IVUS: understanding the images. How to do it
- Deep venous reflux correction: understanding the different kinds of procedures

TARGET AUDIENCE

- Vascular surgeons
- Vascular surgery residents

NUMBER OF PARTICIPANTS

• 8

PARACELSO ROOM

HANDS-ON WORKSHOP Graduated compression for vein and lymphatic disease

Evidence based session on graduated compression.

Dec. 15th | 14.30-16.30

CONVENORS

Domenico Baccellieri, Sergio Gianesini

OBJECTIVES

Participants will receive recent update on current evidence in compression and at the end of the course will be able to perform compressive therapies for vein and lymphatic diseases, to decide pressure and stiffness.

TOPICS

- Current evidence for compression
- Instruction for right compression
- Pressure and stiffness
- Adjustable velcro devices
- Hands-on compression

TARGET AUDIENCE

- Vascular surgeons
- Angiologists
- Vascular surgery residents
